Excelling with a vast, exciting and innovative range of bathroom illuminated mirror/cabinet had facilitated us to the most pioneering company in China. MIRROR LIGHT has been striving for comprehensive and functional collections and yet no compromise in product quality and design ever since its beginning of journey. Not so long ago, the bathroom was perceived as a place that you designed in sober manner and visited as briefly as possible. It was frequently referred to simply as the “wet room” and as such, it lived up to its name. Today, things are totally different! Today, the bathroom has turned into a place that you could be at one with yourselves where stunning modern lighting scheme is complemented. Today, the bathroom is still a place of cleansing, but one that refreshes body and souls alike.

Dedicated to the ultimate indulgence, we generate and embellish your bathroom with a premium collection of lighting mirrors and cabinets solutions. Manufactured using only the finest materials and superior production techniques, there’s also a stunning range of accessories that feature those added little luxuries to adorn your space with. Come and find out your choice of best.
Setting forth in 9 years ago, Mirror Light relied on its self-instinct for service levels, its eye for superb looking but high performing product and his entrepreneurial spirit to make itself the market leading company it is today.

Vincent Chan, president of Mirror Light has been dedicated to innovative bathroom lighting. With his passion, Vincent is excited to be bringing his knowledge, expertise and most of all, enthusiasm for the bathroom industry. As indicated, Mirror Light values every business partner as dearest friend as human beings need fresh air for living support.

“Many people have the wrong idea of what constitutes happiness. It is not obtained by self-gratification but through fidelity to a worthy purpose.”

Fulfillment of mutual economic benefit shall not be simply concluded as what Mirror Light aims at. A stable and long-lasting relationship is what Mirror Light always focus on.

Together with Mirror Light, let’s create life of lighting.
